# MAPOD4D Metaverse

## What is the MAPOD4D Metaverse?

The MAPOD4D Metaverse is the imaginary visitable item that represent an universe in the MAPOD4D Multiverse. MAPOD4D Multiverse is the searchable collection of imaginary universes.

## MAPOD4D Metaverse menu

When you are in the standard view of MAPOD4D Metaverse you can access to Metaverse menu.

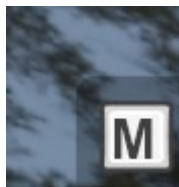

Fig. 1

To open a Metaverse menu, if the icon showed in Fig. 1 appears in the upper left corner, you can press the key "m" on the keyboard.

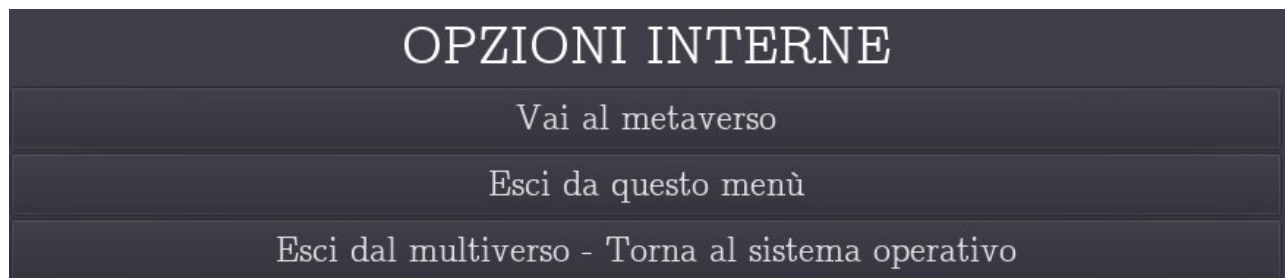

Fig. 2

In Fig. 2 you can see a screenshot of Metaverse menu, here is an explanations of functions:

- "Vai al metaverso" - go to the MAPOD4D Metaverse starting area.
- "Esci da questo menu" - close this menu.
- "Esci dal multiverso" - exit to operating system.

# MAPOD

## what is MAPOD?

MAPOD is your avatar in MAPOD4D Metaverse.

It is like a UAS (Drone) with some differences:

1. It is not subject to gravity force.
2. It hasn't propellers.
3. The pilot can see only through the MAPOD camera.

## MAPOD movement and interaction

You can use the PC keyboard to move MAPOD, here are the keys:

- Horizontal movement forward, key "w".
- Horizontal movement backward, key "s".
- Horizontal movement left, key "a".
- Horizontal movement right, key "d".
- Vertical movement up key "SPACE BAR".
- Vertical movement down key "CTRL LEFT" or "q".

The MAPOD speed is progressive, in other words the more you keep the key pressed, the more the speed is high.

To move the MAPOD camera in every direction you can use the mouse.
